

PHYS2201 - Assessment for the unit

The unit PHYS2201 consists of four components:

- Quantum Mechanics - 26 lectures
- Advanced Mechanics - 13 lectures
- Data Analysis - 4 lectures
- 6 laboratory classes - 3 hours per lab

The final mark for the unit is computed with the following weightings for each component:

- Quantum Mechanics - 50%
- Advanced Mechanics - 25%
- Data Analysis - 5%
- 6 laboratory classes - 20%

The method by which the mark for each of the components is to be computed will be notified by individual lecturers.
